NIO Inc. Delivered 1,766 ES8 Vehicles in the Month of September 2018 and 3,268 Vehicles for the Third Quarter of 2018

SHANGHAI, China, October 15, 2018 (GLOBE NEWSWIRE) — NIO Inc. (“NIO” or the “Company”) (NYSE: NIO), a pioneer in China’s premium electric vehicle market, today announced that as of September 30, 2018, year-to-date deliveries of its ES8, a 7-seater high performance electric SUV, reached 3,368 vehicles, 3,268 of which were delivered in the third quarter 2018. Additionally, delivery volume of the ES8 in September 2018 was 1,766, representing a nearly 58% increase from the prior month.

“We are delighted that we have delivered more than 3,350 ES8s since beginning delivery on June 28, 2018,” said William Li, Founder, Chairman and Chief Executive Officer of NIO Inc. “Growing our monthly deliveries from 381 in July to 1,766 in September demonstrates our steady production ramp, strong demand from users and the initial acceptance of NIO as a premium brand.”

Louis T. Hsieh, NIO’s Chief Financial Officer, added “We are pleased to have delivered 3,268 ES8s during our third fiscal quarter, exceeding our target of 2,900 to 3,000 vehicles by 9%. In addition, in observance of the China National Day one week holiday at the beginning of October, we temporarily shut down our ES8 production line for 10 days for routine maintenance and to install equipment for our second production line which we plan to use to meet the increasing demand for ES8s and for ES6 production, our 5-seater premium SUV targeted for release in June/July 2019. While the planned production transition will slow our deliveries for October, it paves the way for accelerated production ramp in the future and we remain on track to achieve our delivery goal of 10,000 ES8s for the second half of 2018.”
