

NIO Inc. Announces Launch of Battery as a Service and Establishment of Battery Asset Company

08/20/2020

SHANGHAI, China, Aug. 20, 2020 (GLOBE NEWSWIRE) -- NIO Inc. ("NIO" or the "Company") (NYSE: NIO), a pioneer in China's premium smart electric vehicle market, today launched the innovative Battery as a Service (the "BaaS") subscription model and announced the establishment of Wuhan Weineng Battery Asset Co., Ltd. (the "Battery Asset Company").

The BaaS model allows users to purchase electric vehicles and subscribe the usage of battery packs separately. If users opt to purchase an ES8, ES6 or EC6 model and subscribe to use the 70 kWh battery pack under the BaaS model, they can enjoy the vehicle purchase price with an RMB70,000 deduction off the original price and pay a monthly subscription fee of RMB980 for the battery pack. Meanwhile, the users will continue to enjoy the existing favorable policies such as purchase tax exemption and government subsidies for EVs. The first vehicle under the BaaS model has completed the process of license plate registration, insurance purchase, and auto financing. All users who purchase NIO vehicles are now eligible to place orders with the BaaS model.

On August 18, 2020, NIO, Contemporary Amperex Technology Co., Limited ("CATL"), Hubei Science Technology Investment Group Co., Ltd. and a subsidiary of Guotai Junan International Holdings Limited (collectively the "Partners") jointly established the Battery Asset Company. NIO and the Partners will each invest RMB200 million and hold 25% equity interest in the Battery Asset Company respectively. The Battery Asset Company is dedicated to purchase and own the battery assets, and lease the battery packs to users who subscribe to the BaaS model.

"The BaaS model has long been planned with our unique battery swap technologies. The successful launch of the BaaS model will enable NIO users to benefit from the lower initial purchase prices of our products, flexible battery upgrade options and assurance of battery performance," said William Bin Li, founder, chairman, and chief executive officer of NIO. "As of today, NIO has deployed 143 battery swap stations across 64 cities in China, and completed over 800,000 battery swaps for our users. The advantages of our chargeable, swappable and upgradable battery swap technologies will continue to enhance competitiveness of NIO products, promote conversion to our premium smart EVs and create more values for our users."

About NIO Inc.

NIO Inc. is a pioneer in China's premium smart electric vehicle market. Founded in November 2014, NIO's mission is to shape a joyful lifestyle by offering premium smart electric vehicles and being the best user enterprise. NIO designs, jointly manufactures, and sells smart and connected premium electric vehicles, driving innovations in next-generation technologies in connectivity, autonomous driving, and artificial intelligence. Safe Harbor Statement

This press release contains statements that may constitute "forward-looking" statements pursuant to the "safe harbor" provisions of the U.S. Private Securities Litigation Reform Act of 1995. These forward-looking statements can be identified by terminology such as "will," "expects," "anticipates," "aims," "future," "intends," "plans," "believes," "estimates," "likely to" and similar statements.

Among other things, quotations from management in this announcement, as well as NIO's strategic and operational plans, contain forward-looking statements. NIO may also make written or oral forward-looking statements in its periodic reports to the U.S. Securities and Exchange Commission (the "SEC"), in its annual report to shareholders, in press releases and other written materials and in oral statements made by its officers, directors or employees to third parties. Statements that are not historical facts, including statements about NIO's beliefs, plans, and expectations, are forward-looking statements. Forward-looking statements involve inherent risks and uncertainties. A number of factors could cause actual results to differ materially from those contained in any forward-looking statement, including but not limited to the following: NIO's strategies; NIO's future business development, financial condition and results of operations; NIO's ability to develop and manufacture a car of sufficient quality and appeal to customers on schedule and on a large scale; its ability to grow manufacturing in collaboration with partners; its ability to provide convenient charging solutions to its customers; its ability to satisfy the mandated safety standards relating to motor vehicles; its ability to secure supply of raw materials or other components used in its vehicles; its ability to secure sufficient reservations and sales of the ES8 and ES6; its ability to control costs associated with its operations; its ability to build the NIO brand; general economic and business conditions globally and in China and assumptions underlying or related to any of the foregoing. Further information regarding these and other risks is included in NIO's filings with the SEC. All information provided in this press release is as of the date of this press release, and NIO does not undertake any obligation to update any forward-looking statement, except as required under applicable law.
